AWARD FOR INDIVIDUAL ACHIEVEMENT IN ADVOCACY

Honors an individual who has demonstrated exemplary efforts and results over the last 12 months in advocating for legislative or regulatory policies that increase access to mental health and substance use services.

Individuals who have engaged in outstanding work in public policy and advocacy are encouraged to apply for this award. This includes, but is not limited to: consumers, family members, healthcare professionals, staff, board members, and community partners. Past winners have demonstrated excellence in fighting for changes to state laws to support mental health services for children, winning increased budget appropriations for mental health and addiction treatment services, and engaging multiple stakeholders to inform state and federal public policies related to behavioral health. Note that achieving an actual change to federal, state or local laws is not the only benchmark for success; other achievements might include raising public awareness of a legislative issue, building a powerful grassroots coalition to lobby elected officials for change, or other outcomes related to behavioral health public policy.
