Community Healthlink**

Community Healthlink Substance Abuse Disorder Services Continuum

Inpatient:

- One of 3 urgent care programs in state.
- Full continuum of inpatient services including detox program, step down and a transitional program for individuals awaiting placement.

Residential Services

- Two family residential programs where mothers can bring their children.
- Permanent supportive program for families.
- A women's transitional living program and a male transitional living program for individuals with a history of homelessness and in recovery.
- Housing first recovery home. Residential setting for individuals who are contemplative but not necessarily sober.

Outpatient Services

- 3 medication assisted programs in Worcester, Leominster and through our homeless Federally Qualified Health Center.
- Outpatient substance use disorder therapy programs in Gardner, Worcester, Fitchburg and Leominster.

Children's Services

- Highland Grace House
serving girls 13-17
- Motivating Youth Recovery
Only children's detox program in state serving
children 13-17

Motivating Youth Recovery (MYR)

Inpatient detox program for children 13-17

Served 298 individuals in 2017. 90% had a co-occurring diagnosis

Highland Grace House

- Residential program serving girls 13-17
- In 2017 45 individuals were admitted to Highland Grace. 100% of those individuals had a co-occurring diagnosis.
