

SAMHSA-HRSA Center for Integrated Health Solutions

PBHCI Evaluator Webinar Wednesday, August 29, 2012

Jeff Capobianco, Center for Integrated Health Solutions
Deb Scharf, RAND Corporation
Aaron Surma, Center for Integrated Health Solutions

Purpose

- Provide updates on CIHS evaluation-related activities
- Provide a forum for the PBHCI grant evaluation staff, CIHS, and RAND to discuss evaluation topics of interest
- Determine if evaluators would like to continue to hold quarterly evaluator webinars
 - Explore additional evaluation-related topics, such as:
 - Program sustainability (e.g., cost analysis)
 - Within-program evaluation uses (e.g., improving care)
 - External evaluation uses (e.g., marketing your program)

Poll Question #1

Would quarterly evaluator webinars be helpful?

Yes

No

Poll Question #2

Please select which webinar topics would be helpful:

- Open discussion Q&A with PBHCI evaluators
- Using data to inform clinicians, consumers & administrators
- Trend analysis
- Power analysis
- Using process indicators to describe & improve care provision

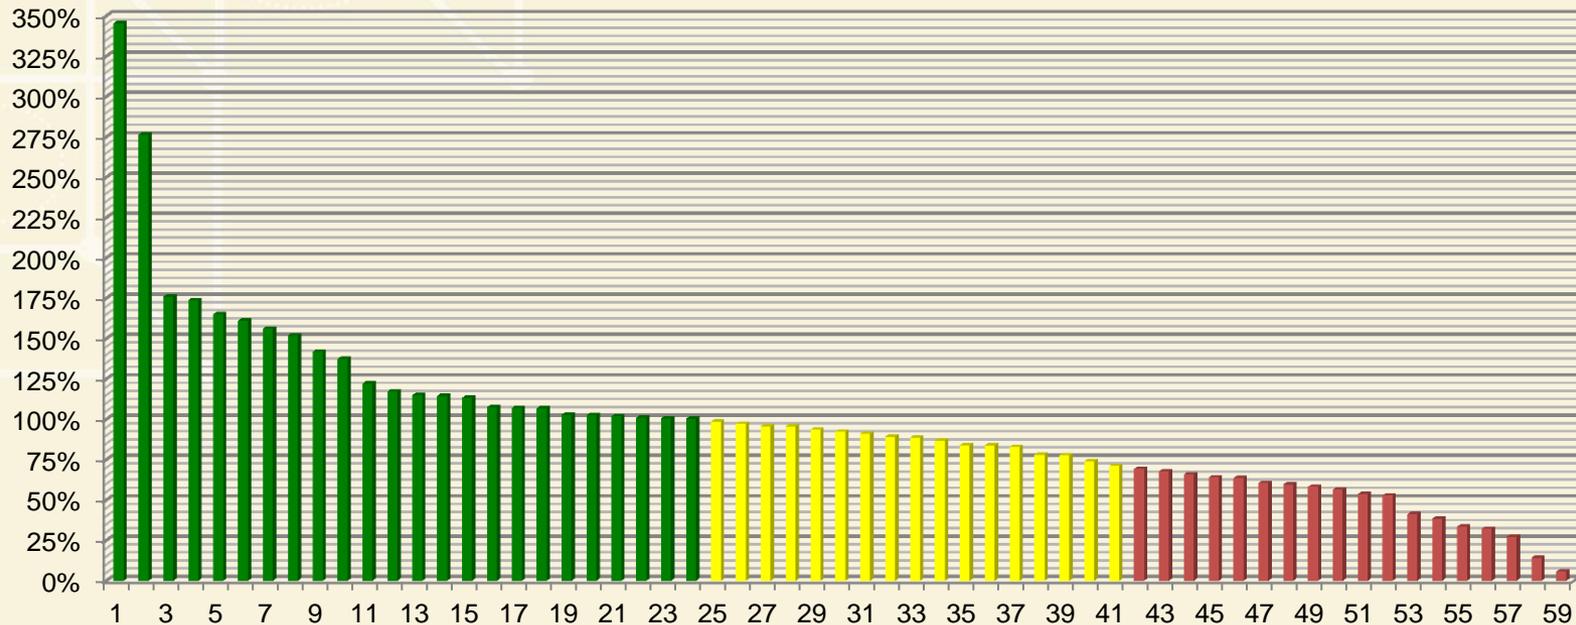

Poll Question #2 continued

- Cost analysis
- Q&A with TRAC staff
- Q&A with RAND staff
- Supporting grantees with dissemination of evaluation findings (e.g. publications & conference presentations)

CIHS Update - Enrollment

% of Enrollment Target Achieved from Grant Inception to June 30, 2012 - All Grantees

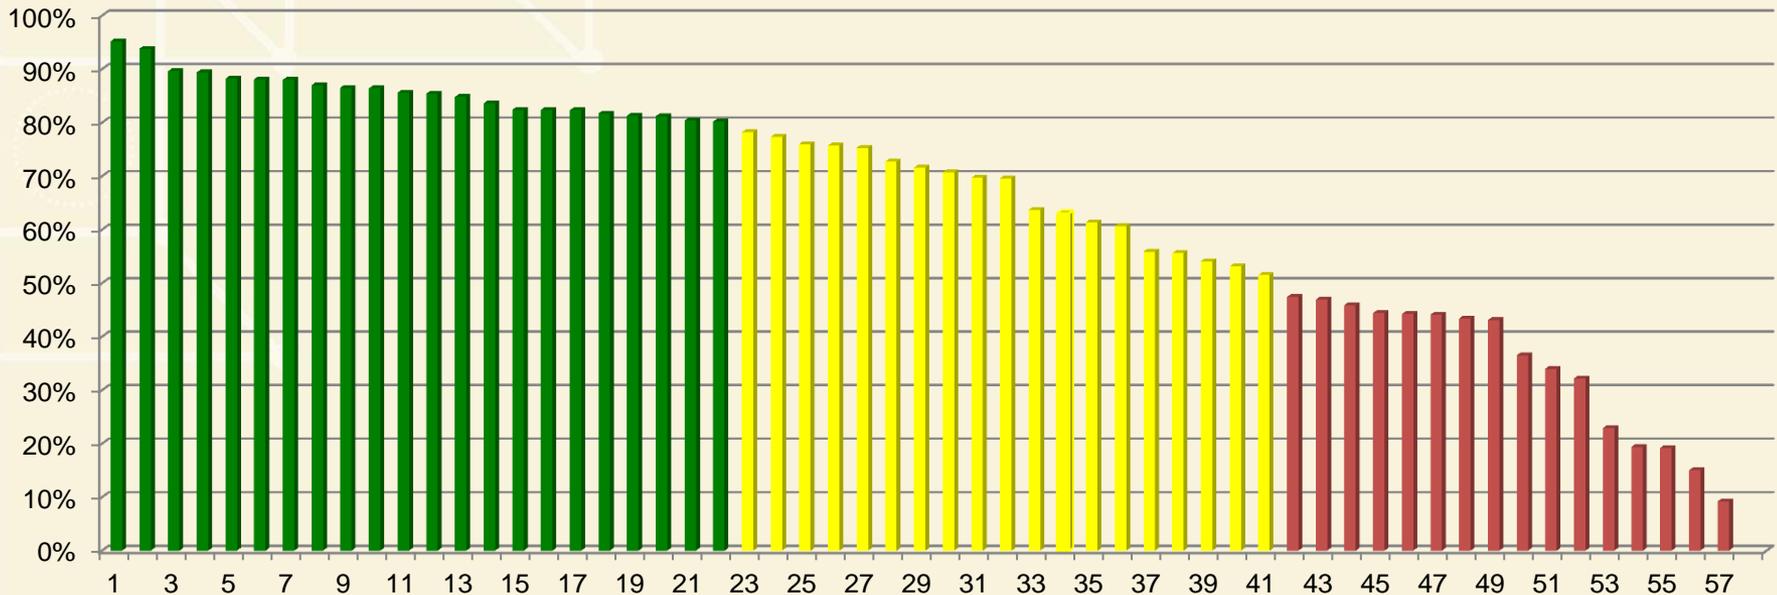

Green =100%+. Yellow=70%-99%. Red=below 70%

CIHS Update - Reassessment

% of Reassessment Target Achieved from Grant Inception to June 30, 2012 - All Grantees

Green = 80%+. Yellow=50%-79%. Red=below 50%

Update on RAND Evaluation

Current activities

- **Baseline data from Cohorts I – III**
 - Program and consumer characteristics
- **Follow-up data from Cohort I**
 - Beginning to look at program and consumer changes over time
 - Outcomes analysis: Difference-in-difference design
 - Data collection complete Spring 2013
- **Quality metrics**
 - Physical health; Behavioral health; Integration

Quality Metrics

- Help clinical staff monitor quality of care
 - Ensure a role for evaluation/evaluators after the grant ends
- Quality metrics can be calculated from PBHCI data
 - National Committee for Quality Assurance (NCQA)
 - Institute for Clinical Systems Improvement (ICSI)
 - Physician Consortium for Performance Improvement (PCPI)
 - National Association of State MH Program Directors Research Institute (NASMHPD-NRI)

Quality Metrics - Examples

At risk for Diabetes (NCQA)

- LDL-C <100mg/dL (TRAC)
- BP <130/80 mm Hg (TRAC)

At risk for Hypertension (ICSI)

- % received education on the use of non-pharmacological treatments (TRAC, Registry)

Tobacco users (PCPI)

- Received cessation interventions (w/in 2 yrs) including counseling and/or pharmacotherapy (TRAC, Registry)

Open Discussion

Possible discussion topics:

- What has been working well for you?
- Role of the Evaluator across sites?
- What are some of your challenges regarding reporting data or using data to inform organizational decisions?
- What TA needs do you have specific to evaluation?

Next Steps

- Future Webinar Plans
- Remember to Post Questions & Ideas on the PBHCI Listserv
