Welcome from the National Council for Mental Wellbeing!

3,300+ health care organizations serving over 10 million adults, children, and families living with mental illnesses and addictions.

• Advocacy
• Education
• Technical Assistance
Introductions

Carolyn Rekerdres, MD
Medical Director, East Texas Behavioral Health Network, NE Region, National Council for Mental Wellbeing, Medical Director Institute

Christina Arredondo, MD
Medical Director of Behavioral Health, El Rio Community Health Center, National Council for Mental Wellbeing, Medical Director Institute

Shauna Reitmeier, MSW, LGSW
CEO, Northwestern Mental Health Center, National Council for Mental Wellbeing, National Board
Introductions

Danica Love Brown, MSW, PhD
Choctaw Nation of Oklahoma
Northwest Portland Area Indian Health Board, Behavioral Health Programs Director

Kait Hirchak, PhD
Eastern Shoshone
Assistant Research Professor, University of Washington

Thomasine Heitkamp, MSSW, LCSW,
Chester Fritz Distinguished Professor Emeritus and Behavioral Health Specialist, University of North Dakota

Dennis Mohatt, MA
Vice President for Behavioral Health, Western Interstate Commission for Higher Education
## Curriculum

<table>
<thead>
<tr>
<th>Month</th>
<th>Session Topic</th>
</tr>
</thead>
<tbody>
<tr>
<td>November</td>
<td><strong>Session 1:</strong> Structural Urbanism and its Impact on Rural Health Outcomes</td>
</tr>
<tr>
<td>December</td>
<td><strong>Session 2:</strong> Identifying equitable approaches and providing culturally responsive services to those most in need in rural communities</td>
</tr>
<tr>
<td>February</td>
<td><strong>Session 3:</strong> Improving capacity of primary care provider organizations to address mental health and substance use needs</td>
</tr>
<tr>
<td>March</td>
<td><strong>Session 4:</strong> Innovative community partnerships to improve mental health and substance use service delivery and reach</td>
</tr>
<tr>
<td>April</td>
<td><strong>Session 5:</strong> Innovative approaches to improving workforce capacity and wellbeing for rural health providers</td>
</tr>
<tr>
<td>May</td>
<td><strong>Session 6:</strong> Sustainability considerations and opportunities (funding, local policy and advocacy, etc.)</td>
</tr>
</tbody>
</table>
We have been socialized to believe that it is not polite to talk about oppression, race and racism (and other –isms) – hearing about & talking about these things may bring up feelings of discomfort.

We ask ourselves and participants to be mindful of assumptions, and biases during this presentation.

We ask ourselves and participants to be aware of multiple identities, backgrounds and perspectives in our virtual space.
Who is in the Room?

Innovative Approaches to Improving Workforce Capacity & Wellbeing for Rural Health Providers

Shauna Reitmeier, MSW, LGSW
CEO, Alluma Inc.,
National Council for Mental Wellbeing, National Board

Thomasine Heitkamp, MSSW, LCSW
Chester Fritz Distinguished Professor Emeritus and Behavioral Health Specialist,
University of North Dakota
Overview

• Background regarding limitations – Rural behavioral health
• Multi-system engagement/response
• What has worked *Shauna's experience*
• Resources
• References
A Call to Action
Addressing the Workforce: Front and Center in Policy and Funding Streams

A crisis: The reality is that individuals with mental health and substance use needs are facing challenges accessing adequate, timely and affordable care in every state in the country—and this can lead to dire consequences such as worsening symptoms, the need for acute care services, subsequent engagement in the criminal justice system and, in some cases, suicide or overdose.

Rural issue: “Developing the rural mental health workforce should be a continued priority. Efforts to train and recruit mental health professionals in rural and remote areas should be combined with service adaptations and supports like remote consultation to fully leverage existing workforce capacity”.

Sources: HMA and National Council on Mental Well Being, 2021; National Association of State Mental Health Directors, 2021
Impact of Residing Rural: Exacerbated by Covid-19 Pandemic

Rural residents with behavioral health needs enter care later in the course of their disease than do their urban peers.

- Resulting in more serious, persistent, and disabling symptoms and intensive treatment response.
- 4As – President’s New Freedom Commission underscored “4A’s the lack of accessibility, availability, affordability, acceptability.
- Not unique to rural - only 10% of the population who have a substance use disorder (SUD), receive any type of specialty treatment.

Sources: Garcia, 2019; CDC About Rural, 2017; Hogan, 2003; Center for Behavioral Health Statistics, 2016
Behavioral Health Workforce Projections

HRSA Health Workforce Projections – No Wrong Door – Interprofessional Approach

- Adults & Child Psychiatrists*
- Nurse Practitioners
- Physician Assistant
- Psychologists
- Social Workers
- Substance Use Counselors
- Mental Health Counselors
- School Counselors
- Marriage & Family Therapists

(*the need for psychiatrists is noted as the greatest in most studies)
Workforce Shortage – The Reality

> 75% of all U.S. counties are mental health shortage areas, and half of all U.S. counties have no mental health professionals at all.

HRSA estimates that more than 7,700 professionals are needed to fill existing behavioral health workforce gaps.

~46% turnover for Indian Health Services physicians each year, creating difficulties in developing trusting relationships between patients and providers.

Council on Social Work Education (CSWE), 2019 data summary:
BSW graduates: 1.1% of the students enrolled in BSW, and .8% of the graduates, were AI/AN.
MSW enrollment of AI/AN students was .9% with .7% as MSW graduates.
<table>
<thead>
<tr>
<th>Factors that Impact Access</th>
</tr>
</thead>
<tbody>
<tr>
<td>Supply and demand - too few people entering the profession</td>
</tr>
<tr>
<td>Low salaries</td>
</tr>
<tr>
<td>Lack of interest in residing in remote and rural areas</td>
</tr>
<tr>
<td>Professional protectionism</td>
</tr>
<tr>
<td>Population growth creating greater need</td>
</tr>
<tr>
<td>Impact of isolation due to Covid-19</td>
</tr>
<tr>
<td>Behavioral health care provider retirement</td>
</tr>
<tr>
<td>Aging workforce</td>
</tr>
<tr>
<td>Insurance coverage expansion</td>
</tr>
<tr>
<td>Examining barriers created in licensure/certification, particularly people of color</td>
</tr>
<tr>
<td>Extensive paperwork-Medicaid funded programs</td>
</tr>
<tr>
<td>Needless delays in securing necessary credentials</td>
</tr>
</tbody>
</table>
Certified Community Behavioral Health Clinics (CCBHC): Integrated Model of Care
A model that has proven effective. This model was launched in 2017 in eight (8) states, as a alternative payment model in Medicaid to improve care delivery for people experiencing mental health and substance use challenges. Continued Substance Abuse and Mental Health Services Administration (SAMHSA) grants are issued to build the model. Currently there are over 430 CCBHCs across 42 states.

Alluma Inc.
- **CCBHC in Northwest MN**, geographic size as Vermont, 68,000 population, serve 4,300 unique individuals annually, 1st agency in MN to use telehealth.
- One Stop Shop (No 4 Walls): Comprehensive array of clinic and community-based care assessment, therapy, treatment planning, rehabilitation, peer recovery, targeted case management, 24/7 mental health crisis, medication assisted treatment and veteran specific care.

- **Not immune** to challenges...our strategies internally.
- National Council for Mental Wellbeing also provides TTA related to CCBHCs
Workforce Capacity
Provider Perspective

Evaluate current employee functions

- Are they working at the “Top of their License or Position”? 
- Care Coordination
- Use full array of available services in MN

Attracting; Broadening; Training

- Marketing & Messaging Agency Mission 
- Inclusive Environment & Cultural Humility 
- Grow our own workforce: career pathways
  - Peers, Rehab Worker, Practitioner, Professionals
- Evidence Based Practices & Interventions; Rural Culture; Generalists
- Tuition Reimbursement
- Benefits

TheNationalCouncil.org/Integrated-Health-CoE
Expanding Workforce Capacity
Strategies from a Provider Perspective

• Relationships with Educational Institutions
  • Internships = New hires
  • Expansion of Disciplines

• Federal Strategies
  • National Health Service Corp

• Local/State Strategies
State-level Strategies
Expanding Workforce Capacity

State Strategies

• Loan repayment, scholarships, MCO’s
• Pipeline/pathway programs
• Visa waiver programs
• Shared job postings
• Investments in telehealth, to extend access to services and provide professional guidance for providers
• Support integrated care environments and provide learning collaboratives to support rural providers

Reimbursement Rates to keep up with inflation
• Medicaid State Plans
• State Associations for legislative advocacy

TheNationalCouncil.org/Interated-Health-CoE
Focus on Future

• **Limitations of research and evaluation capacity** examination of needs and the future.

• **Farming thorough and changing landscape** - 20% of the rural population makes their livelihood in farming – rural is diverse.

• Examination of the impact of **structural urbanism from first ECHO**
  - Lack of rural research
  - Women leadership opportunities

• **Collaboration** with Child Welfare System. [Rural Child Welfare Practice](#)
Focus on Future
Diversity, Equity & Inclusion

*Diversity Equity and Inclusion* – (DEI) -People of color comprise 21% of the rural population (Pipa & Geismar, 2020).

- Communities are changing as they become more economically complex. Recent US Census data underscores the increase in diversity.
- Changing currently inequitable behavioral health care systems must involve gaining the trust of Black, Latinx, and Indigenous communities (Shim, 2021).
- Providers of addiction services in the United States are typically not members of the diverse societies which results in “a treatment gap” in cultural approaches to care (Hoage et al 2013)
Focus on Future
Continued

• **Create a Workforce Needs Plan** – What are the Needs?
  - Advocates for Human Potential toolkit guidance
  - Long-term and short-term solutions

• **Public private partnerships** to fund additional loan repayment programs and scholarships – expand funding beyond National Health Service Corps (NHSC) programs including state-only funding, tax breaks. (HRSA-Loan Repayment)

• **Prepare/Expectations** that providers function in inter-professional teams – problems are too complex to solve by one profession (IPEC, 2016)

• **Collaboration with educational institutions** of workforce training needs, co-sponsor conferences, and fund pipeline programs (AHEC), collaborate with guilds. (AHEC, 2021)

• **Tiered certification** to move providers into the field earlier in their training, with supervision, or requirements for service following clinical supervision,

• **Creative pipeline programs** that included specialty training such as mental health first aid and/or peer support trainings,
Mental Wellbeing of Employees

- **Increased need to support mental health in the workplace**
  - 80% of the workers living with a mental health condition indicate shame and stigma prevent them from seeking treatment

- **Desire for safe space and connection between supervisors and supervisees**
  - Ask how people are doing and touch base frequently with direct reports “How are you doing, really?”

- **Examine recruitment and retention trends**

- **Burn out**: 93% of health care workers were experiencing stress, 86% reported experiencing anxiety, 77% reported frustration, 76% reported exhaustion and burnout, and 75% said they were overwhelmed.

- **Psychological Safety**
Workforce Wellbeing

Employee Engagement

• Relationships, Connection, Listening
• Work Culture/Environment (Healthy, Toxic, Neutral)
• Supervisor Supervisee Relationship: Stay Interviews
• Sense of Purpose and Fulfillment
• Clear expectations and accountabilities
• Empowerment & Removing Barriers
• Workshops and Trainings to build personal resilience
• Team meetings/sense of community
Workforce Wellbeing & Human Resources

Understand the perception of HR

- Promote the use of benefits and have HR as a carrot vs. stick
- PTO/Vacation/Sick
  - Inclusion of Mental Health days?
- Market Salary Evaluation
- Flexibility of workforce
- Employee Assistance – reciprocal arrangements
