# CCBHC-E National Training and Technical Assistance Center

*Needs Assessment Toolkit Webinar*

*January 30, 2024*

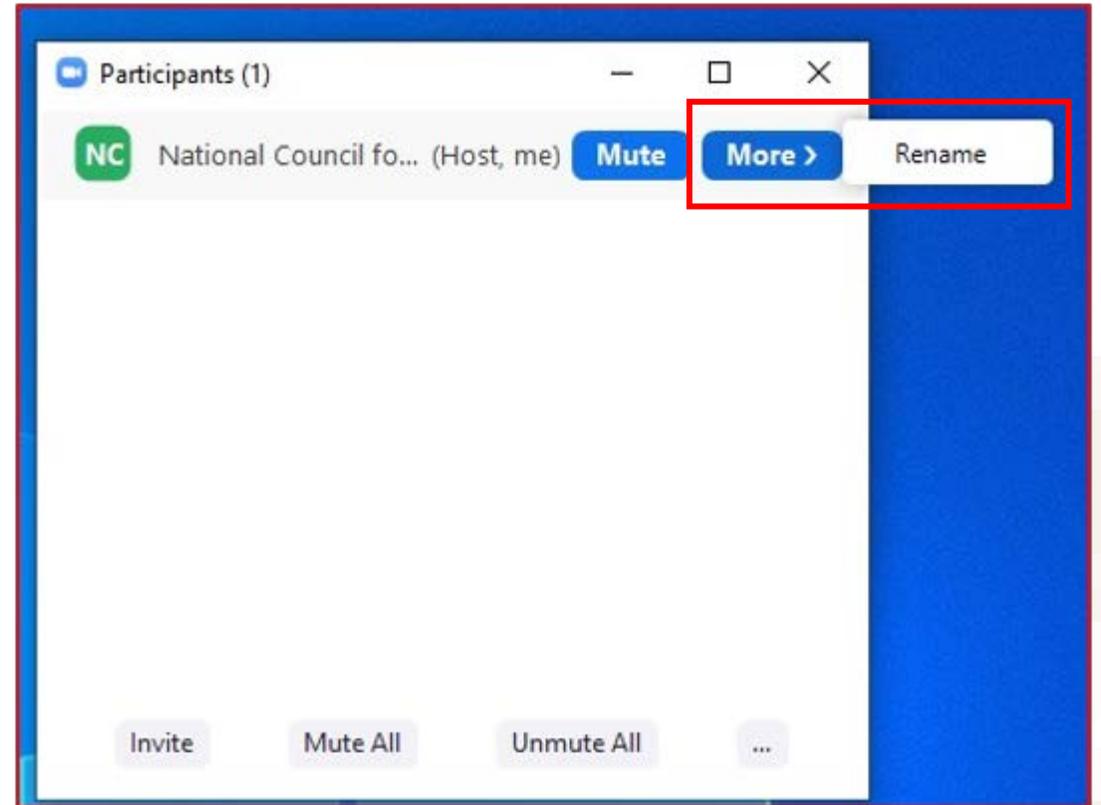

**CCBHC-E National Training and Technical Assistance Center**

Funded by Substance Abuse and Mental Health Services Administration and operated by the National Council for Mental Wellbeing

*This publication was made possible by Grant No. 1H79SM085856 from the Substance Abuse and Mental Health Services Administration (SAMHSA). Its contents are solely the responsibility of the authors and do not necessarily represent the official views, opinions or policies of SAMHSA, or the U.S. Department of Health and Human Services (HHS).*

# Logistics

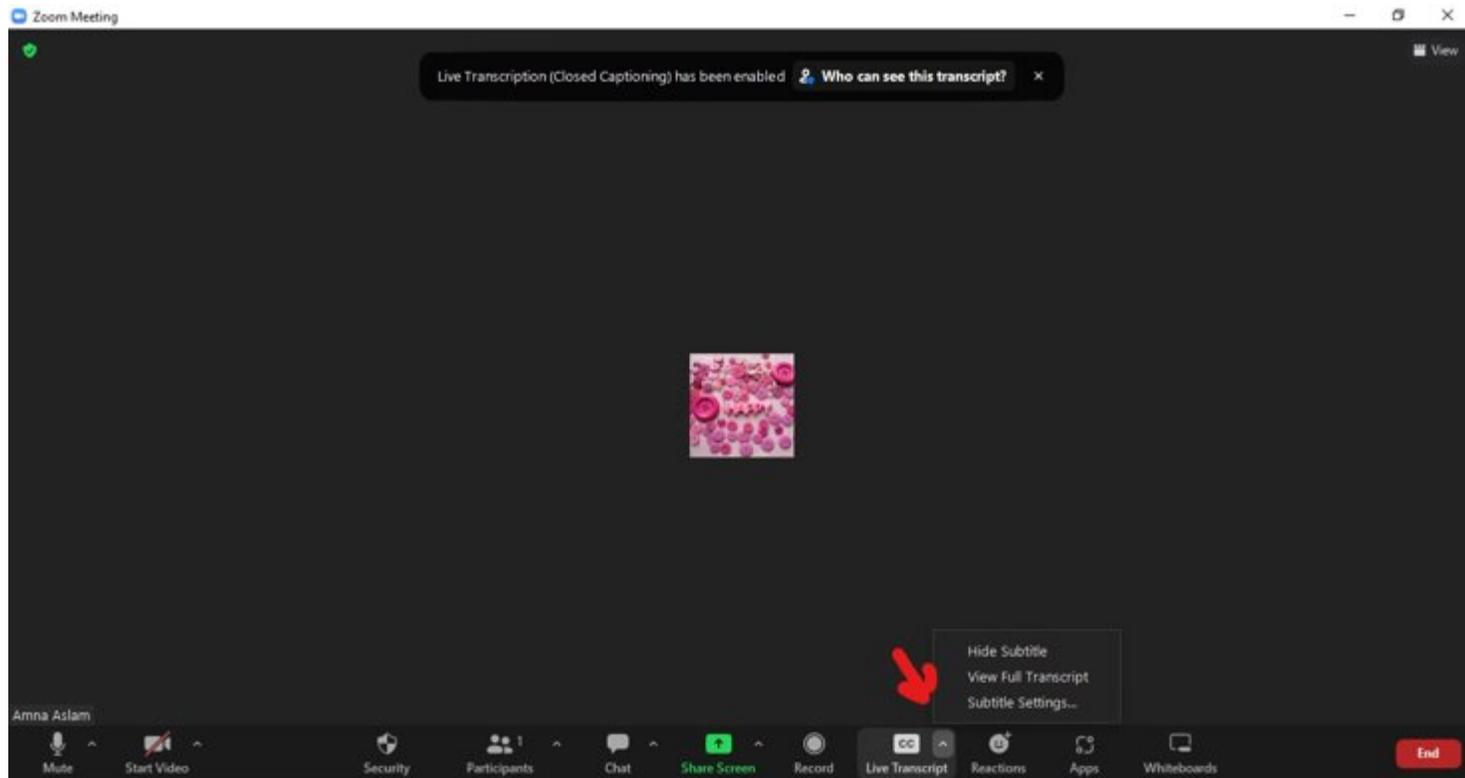

- Please rename yourself so your name includes your organization.
- *For example:*
  - **D'ara Lemon, National Council**
- *To rename yourself:*
  - Click on the **Participants** icon at the bottom of the screen
  - Find your name and hover your mouse over it
  - Click **Rename**
- If you are having any issues, please send a Zoom chat message to **D'ara Lemon, National Council**

COUNCIL  
for Mental  
Wellbeing

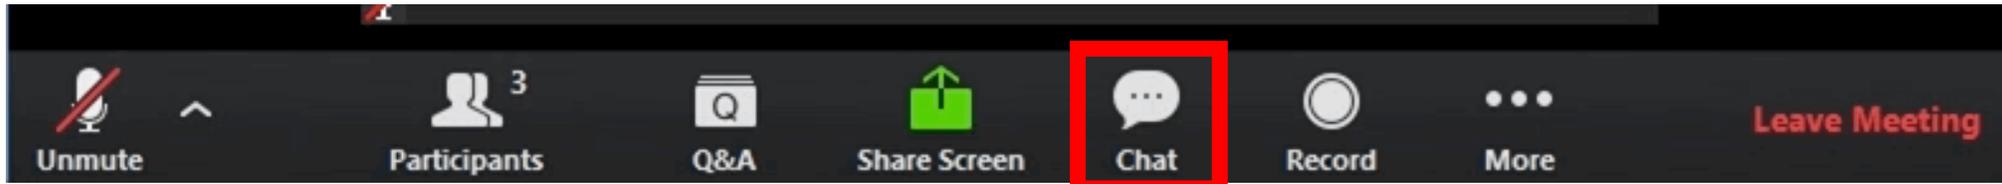

# How to Enable Closed Captions (Live Transcript)

Next to “Live Transcript,” click the arrow button for options on closed captioning and live transcript.

# How to Ask a Question

Please share questions throughout today's session using the **Chat Feature** on your Zoom toolbar.  
We'll answer as many questions as we can throughout today's session.

# Today's Agenda

- 1 • **Community Needs Assessment - Requirements for CCBHCs**
- 2 • **Needs Assessment Toolkit - Overview**
- 3 • **Needs Assessment Data Sources**
- 4 • **Needs Assessment Outline**
- 5 • **Putting Findings into Practice**

# Learning Objectives

- Describe why a robust community needs assessment is crucial for effective CCBHC implementation.
- Explain how CCBHCs can use the community needs assessment to inform staffing, partnerships and services.
- Understand the required elements of the CCBHC Needs Assessment, as set forth in SAMHSA criteria.
- Explain requirements and best practices for the engagement of people with lived experience and community partners in the needs assessment process.

# Presenters

# Requirements for CCBHCs

# What Is a CCBHC?

An integrated community behavioral health clinic model of care that aims to improve service quality and accessibility, a CCBHC:

- Provides integrated, evidence-based, trauma-informed, recovery-oriented and person-and-family-centered care.
- Offers the full array of CCBHC-required mental health and substance use disorder (SUD) services and primary care screening.
- Has established collaborative relationships with other providers and health care systems to ensure coordination of care.

# Clarifying CCBHC Assessments

## Clinics

### Community Needs Assessments

- What's working well in the CCBHC's service area that could be improved?
- What population-specific services are lacking in the service area?
- What added capacities are necessary through the CCBHC to ensure health equity?

### Clinic Readiness Assessments

- How prepared are the clinic and its partners to meet the CCBHC criteria?
- How feasible is it for a clinic to achieve CCBHC state certification by July 2024?
- What resources are needed for the clinic to achieve readiness?

## States

### Aggregated Community Needs Assessment

- What is the demographic makeup of the state?
- What's working well in the current behavioral health system in the state?
- Where are the gaps in services and needs in the behavioral health system in the state?

### State Preparedness Assessment

- Outside of behavioral health and Medicaid, are all state divisions aligned on CCBHC efforts?
- What additional criteria should be required or allowed from assessments?
- What's the feasibility for the state to certify clinics as CCBHCs by July 2024?

# Community Needs Assessment: Definitions and Requirements

# CCBHC Criteria Appendix A: Terms and Definitions

## Community Needs Assessment:

- Identify community needs and determine program accessibility and capacity.
- Collaborate with other community stakeholders.
- Integrate input from people with lived experience of mental health and/or substance use challenges and family members.
- Identify current conditions and desired services or outcomes in the community.
- Specific CCBHC criteria are tied to the community needs assessment, including staffing, language and culture, services, locations, service hours and evidence-based practices.
- Be thorough and reflect the treatment and recovery needs of those who reside in the service area across the lifespan including children, youth and families.
- If a separate community needs assessment has been completed in the past year, the CCBHC may decide to augment, or build upon the information, to ensure that the required components of the community needs assessment are collected.

# Community Needs Assessment Requirements

Section	Criteria	Description
Staffing	1.a.2	The staff (both clinical and non-clinical) is appropriate for the population receiving services, as determined by the community needs assessment.
	1.a.3	The chief executive officer (CEO) of the CCBHC, or equivalent, maintains a fully staffed management team as appropriate for the size and needs of the clinic, as determined by the current community needs assessment and staffing plan.
	1.b.2	The staffing plan is informed by the community needs assessment and includes clinical, peer and other staff.
	1.d.4	Prior to certification, the needs assessment will inform which languages require language assistance, to be updated as needed.

# Community Needs Assessment Requirements

Section	Criteria	Description
Availability and Accessibility of Services	2.a.2	Informed by the community needs assessment, the CCBHC ensures that services are provided during times that facilitate accessibility and meet the needs of the population served by the CCBHC, including some evening and weekend hours.
	2.a.3	Informed by the community needs assessment, the CCBHC provides services at locations that ensure accessibility and meet the needs of the population to be served, such as settings in the community and – as appropriate and feasible – in the homes of people receiving services.
	2.a.6	Informed by the community needs assessment, the CCBHC conducts outreach, engagement and retention activities to support inclusion and access for underserved individuals and populations.

# Community Needs Assessment Requirements

Section	Criteria	Description
Care Coordination	3.c.3	The CCBHC has partnerships with a variety of community or regional services, supports and providers. CCBHCs may develop partnerships with [the entities listed in the criteria] based on the population served, the needs and preferences of people receiving services and/or needs identified in the community needs assessment.
Scope of Services	4.c.1	The CCBHC provides crisis receiving/stabilization services that must include, at minimum, urgent care/walk-in mental health and substance use disorder services for voluntary individuals. Walk-in hours are informed by the community needs assessment and include evening hours that are publicly posted.
	4.f.1	The CCBHC or the DCO must provide evidence-based services using best practices for treating mental health and substance use disorders across the lifespan, with tailored approaches for adults, children and families. (● Note: Based upon the findings of the community needs assessment as required in program requirement 1, certifying states must establish a minimum set of evidence-based practices required of the CCBHCs.)

# CCBHC Needs Assessment Toolkit

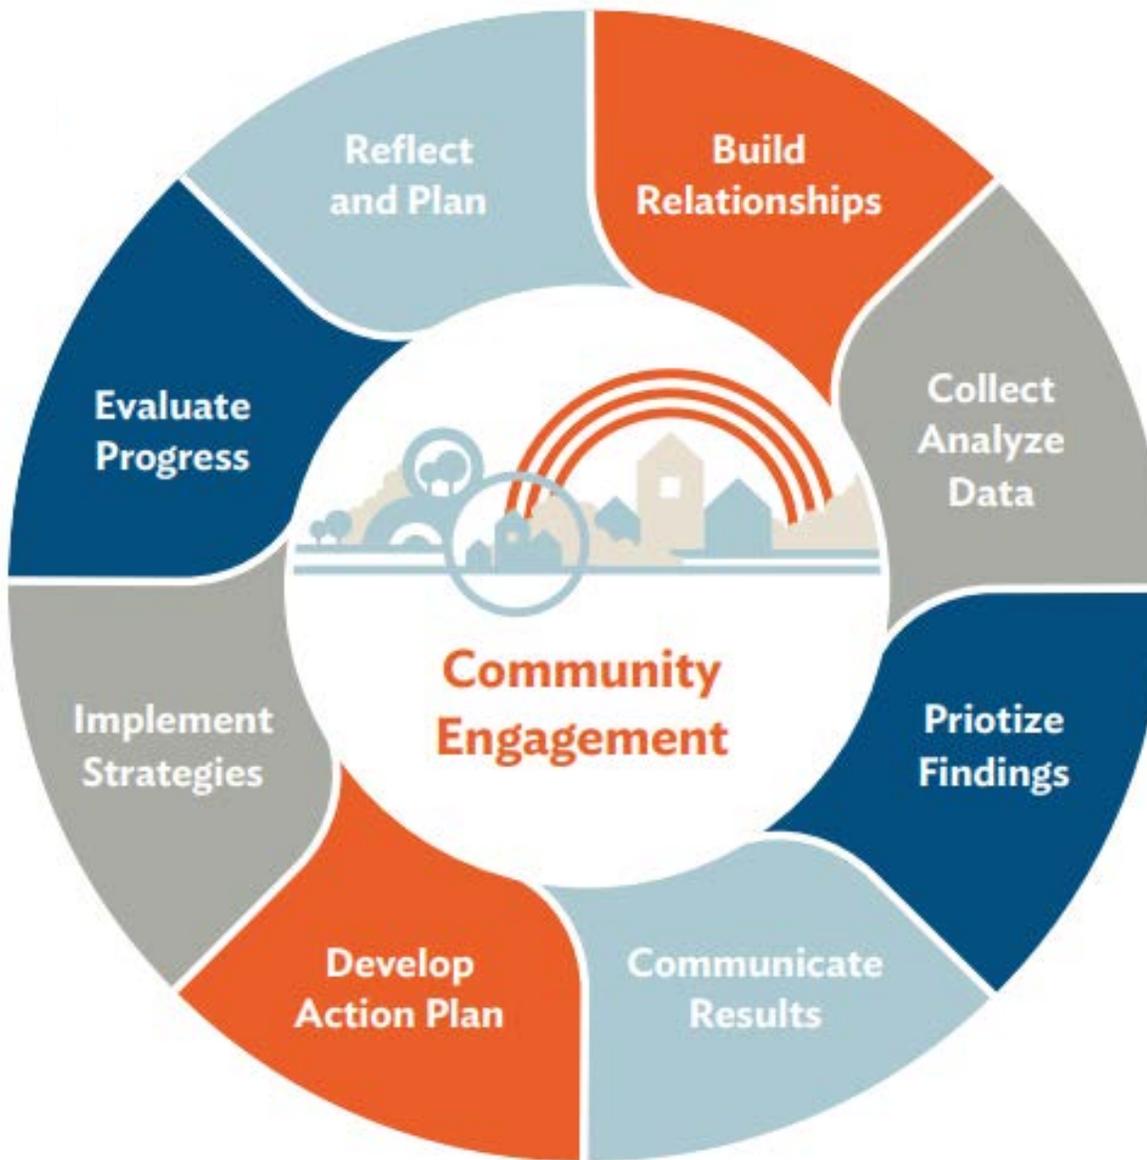

# Key Drivers of the Needs Assessment

Individuals with lived experience, family members, and the local community (especially those from underserved populations) are key drivers and constituents of the needs assessment!

Wellbeing

# The Needs Assessment Cycle

Informed by the Association for Community Health Improvement, American Hospital Association (2023). [Community Health Assessment Toolkit](#).

# Needs → Outcomes

# CCBHC Needs Assessment Toolkit

## Toolkit Includes:

- SAMHSA requirements
- Best practices for needs assessment planning and implementation
- Concrete examples of how a CCBHC can use the needs assessment to guide improvements in services, staffing, and operations
- Practical tools
  - Linked list of quantitative data sources and data comparison tool
  - Model scripts for qualitative interviews and focus groups
  - Needs assessment outline

# Define Your Guiding Questions

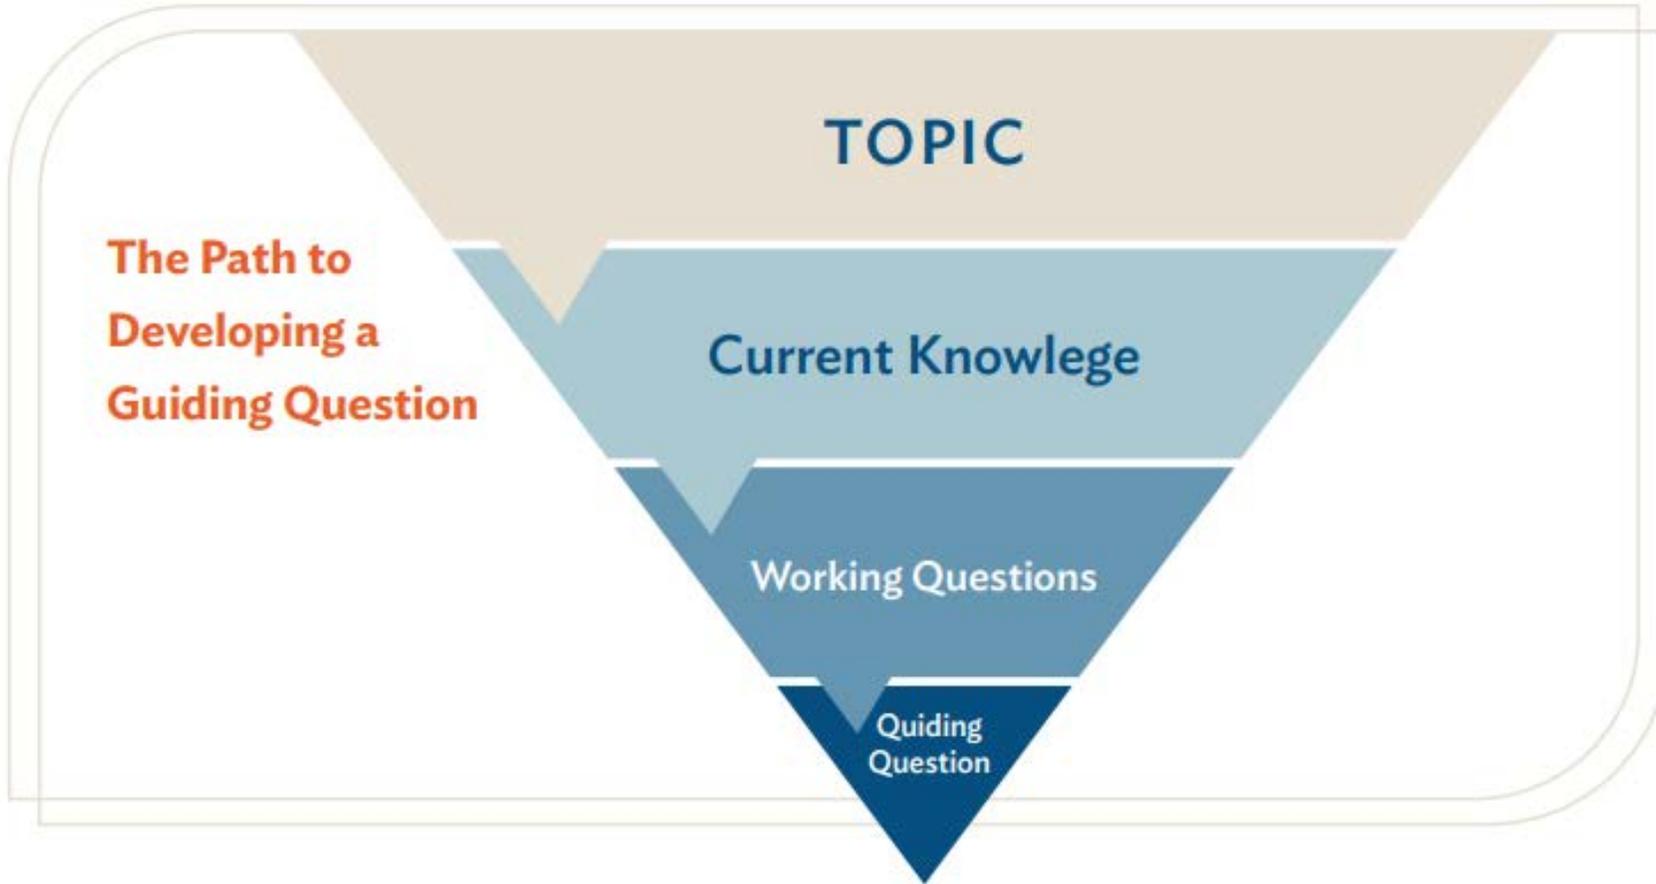

Image adapted from Marquez, et al (2022). [Step-by-Step Guide to Community-Based Participatory Research](#). Nevada Minority Health and Equity Coalition. University of Nevada, Las Vegas.

# Create Your Assessment Plan

CORE ELEMENTS OF THE ASSESSMENT PLAN	
<b>Guiding Questions</b>	What does the needs assessment seek to answer?
<b>Indicators</b>	What information is needed to answer your guiding questions?
<b>Data Sources</b>	Where will the data specific to your guiding questions be sourced from?
<b>Data Collection</b>	How will the data be collected and compiled?
<b>Time Frame</b>	What is the time frame to complete activities?
<b>Data Analysis</b>	How will the data be analyzed?
<b>Communicating Results</b>	How will findings be documented and communicated?
<b>Responsible Person</b>	Who is responsible for completing each activity?

Adapted from Marquez, et al (2022). [Step-by-Step Guide to Community-Based Participatory Research](#). Nevada Minority Health and Equity Coalition. University of Nevada, Las Vegas.

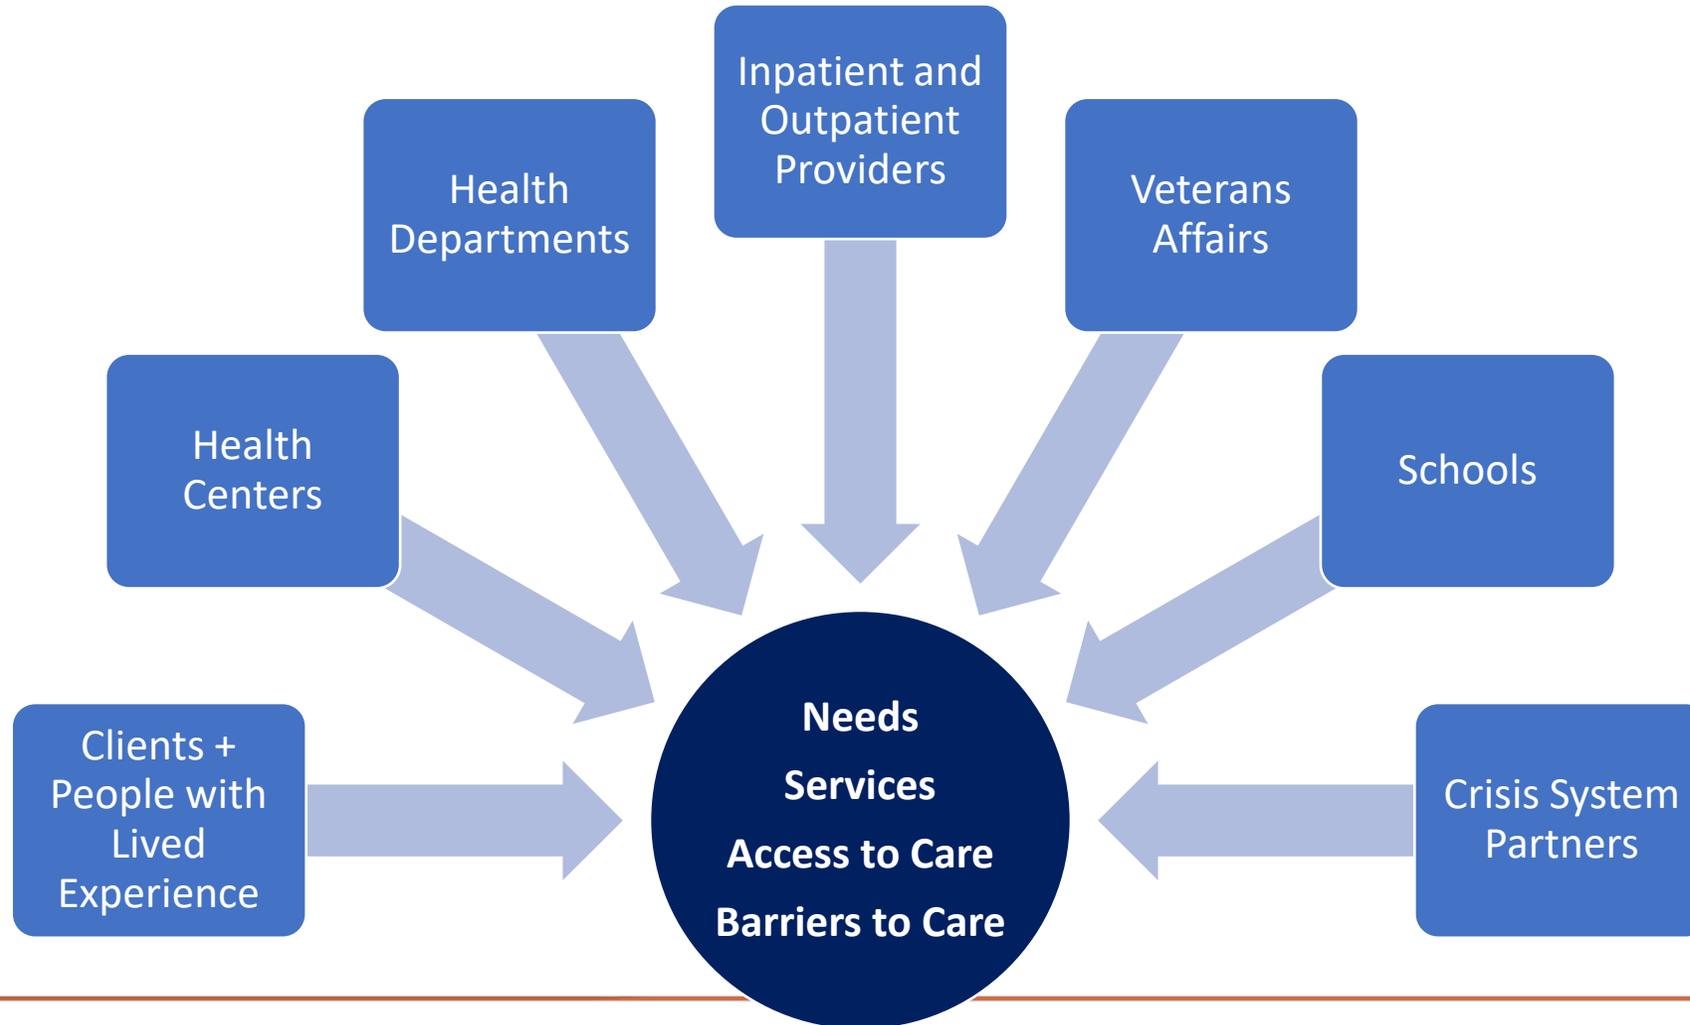

# Community Engagement is Essential

Community engagement in the needs assessment process is necessary:

- For your CCBHC services to reflect the needs and population of the service area
- To reach people your organization has **not** engaged
- To build partnerships that will help you better serve your clients
- To meet SAMHSA's requirements for community input into the community needs assessment

# Who Should Provide Input?

NATIONAL  
COUNCIL  
for Mental  
Wellbeing

# Characteristics of an Effective Needs Assessment

- Aligned with CCBHC Criteria
- Focused Inquiry
- Staff Involvement
- Partner Involvement
- Input from People with Lived Experience and Family Members
- Findings Tied to Practice

# Pitfalls to Avoid

- Lack of Connection to CCBHC Services and Operations
- Lack of Focus
- Insufficient Staffing/Resources
- Lack of Broader Community Engagement
- Too Much Content

# Needs Assessment Data Sources

# Using Data in Your Needs Assessment

## *Purpose:*

- Better understand your community's needs
- Understand your CCBHC's capacity to meet those needs

*Primary role:* Inform and answer your guiding questions

# Quantitative Data

Can help you understand

- Community Demographics
- Community Behavioral Health Needs
- Community Social Needs
- Your organization's Current Services
- Your organization's Staffing

# Qualitative Data

- Adds shape and depth to quantitative findings
- Fills gaps where quantitative data does not exist
- May spur new questions and data searches
- Helps build community relationships for addressing needs and opportunities

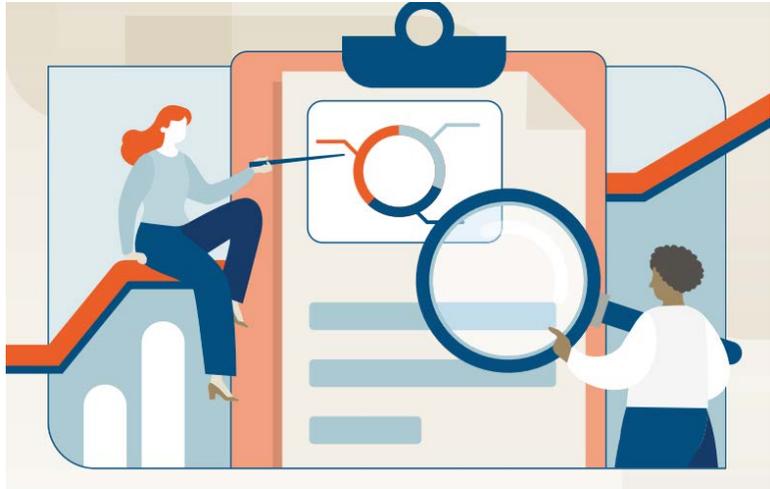

## GENERAL TIPS FOR THE COMMUNITY INPUT PROCESS

- ❏ Choose guiding questions to explore when engaging stakeholders. Stakeholder input may be especially helpful when:
  - Cultural barriers or gaps in knowledge exist.
  - Quantitative data does not drill down to the local level.
  - Data is limited and does not reflect the full service area.
  - Exploring the needs of special populations that the organization has not previously served.
  - Interviews or focus groups will provide a range of perspectives on the topic.
- ❏ Define your objective for speaking with each stakeholder group.
- ❏ Identify the stakeholder representative(s) who can best help you meet your objective.
- ❏ Determine the approach to speaking with the representatives: interview, focus group or informal conversation.

# Additional Data Topics in the Toolkit

- Addressing data collection, reporting and tracking requirements
- Using internal and external data
- Collecting and analyzing data
- Getting input from key stakeholders, including people with lived experience and community leaders
- Tips for outreach, stakeholder interviews & focus groups
- Appendices: Data Comparison Tool, List of Data Sources

***Together, qualitative and quantitative data can impart the full picture of the unique strengths and challenges of the community you serve and your CCBHC.***

***Data can help you prioritize findings in your needs assessment.***

# Practical Tool: Needs Assessment Outline

# Required Elements of the Needs Assessment

**TABLE 1: REQUIRED ELEMENTS OF THE CCBHC NEEDS ASSESSMENT**

1	Service area description and sites where CCBHC services are offered.
2	Prevalence of mental health and substance use conditions and related needs in the service area.
3	Economic factors and social determinants of health affecting access to care in the service area.
4	Cultures and languages of populations in the service area.
5	Identification of underserved populations.
6	Description of how the CCBHC's staffing plan will address needs assessment findings.
7	Plan to update the needs assessment at least every three years.
8	Input from people with lived experience and key community partners on community needs, CCBHC services, access to care and barriers to care.

Source: SAMHSA CCBHC Certification Criteria, Appendix A (March 2023)

# Putting Findings into Practice

# Make a Plan: How Will You Use the Findings?

Prepare findings for sharing with a wide range of audiences:

- Organize the findings with review and discussion in mind
- Put it in user-friendly formats: slide decks, visuals, briefs

Share findings with:

- Staff
- Board and advisors
- Partners and leaders
- Stakeholders in the community

# Target Your Findings for Implementation

- Prioritize your findings by reviewing and discussing how to build on strengths and address gaps
- Make sure you are addressing requirements for staffing, accessibility, outreach, partnerships, and services
- Document them in an implementation plan with action steps and time frames

# Integrate Your Findings into Everyday Practice

## *Practical examples*

- **Staffing:** Revise staff positions to reflect new workflows for care coordination and associated roles
- **Service Array:** Define population-specific care pathways
- **Language Access:** Train staff on how to support consumers with limited language proficiency
- **Operations:** Inform clinic hours of operation, including walk-in, evening, & weekend
- **Partnerships:** Partner with organizations that work with special populations to improve access and culturally competent care

## Focus Study: Addressing Housing Insecurity

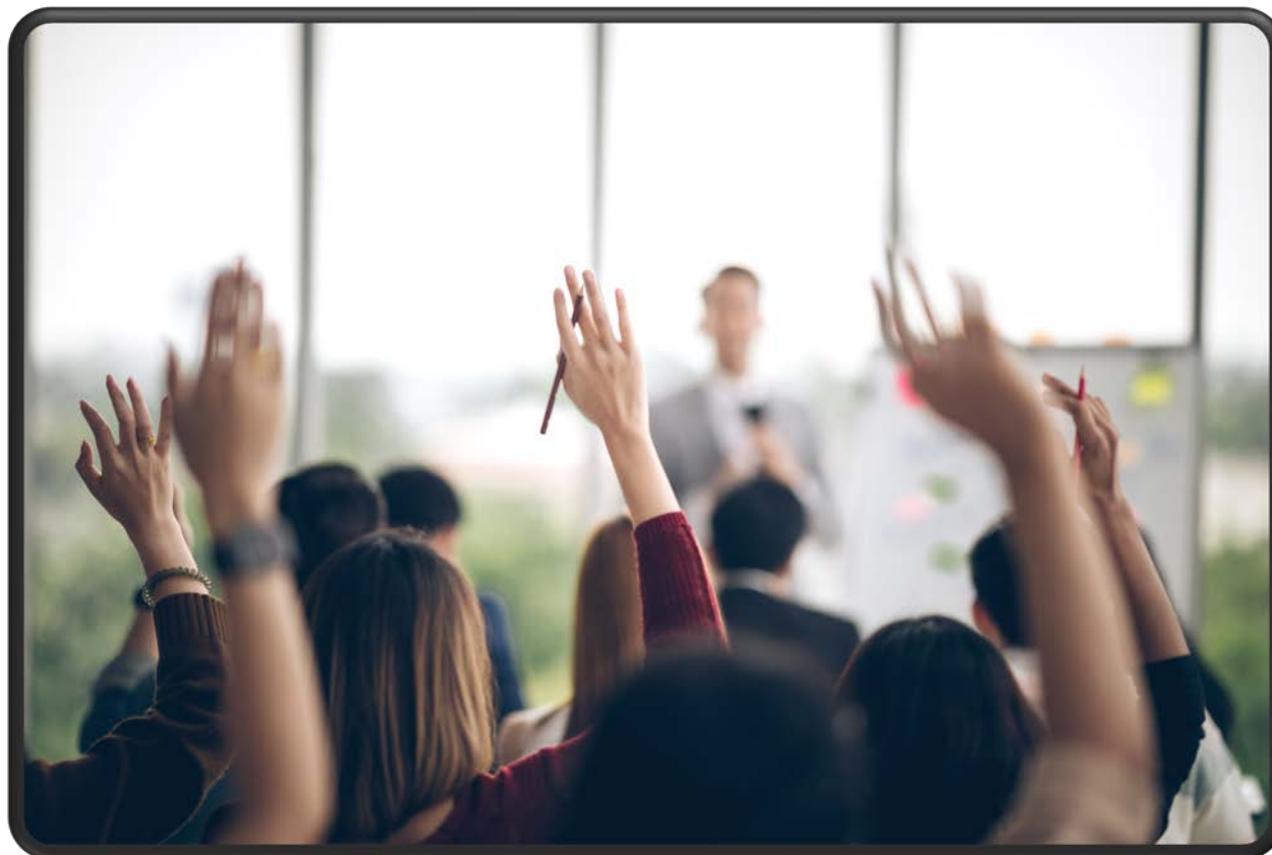

# Housing's Direct Impact on Health

- When housing costs exceed 30% of income, little is left over for food, clothes, utilities, transportation, and health care and prescriptions
- Substandard housing exposes people to health and safety risks (e.g., vermin, mold, water leaks, and inadequate heating and cooling systems)
- Homelessness precipitously deteriorates one's health
- Housing insecurity - a major adverse childhood experience - can lead to poor child development with long-term health impacts

# How Can You Address This in the Needs Assessment?

- Include guiding questions
  - To what extent is our organization serving people who are housing insecure?
  - How can we address the needs of families and individuals who are housing insecure?
- Consider quantitative sources of data
- Include community engagement and qualitative sources of data
- Determine who are potential partner agencies
- Put findings into practice
